The dealings in stocks to-day were nearly up to the delit average of last week, while in bonds they were fully equal to that average. Both departments of the Exchange continued to researing speculative interest. The aggregate transactions were not only large, but they were unusually well distributed, and the tone was in unusually well distributed, and the tone was in the main strong throughout. The opening was so buoyant that many speculative holders ways induced to take profits. This was done to an extent that encouraged the professional element to sell the market for a reaction. The two circumstances resulted in a moderate midday decline that was vary nearly general. This movement was helped by persistent selling of People's fiels and Manhattan Railway. In spite of a raily at the close both of these stocks closed raily at the close both of these stocks closed fractionally lower than on last Friday. Man-hastan Railway was exceptionally heavy, at a net loss of nearly a point. It is understood that the earnings of the company continue to show a heavy falling off as compared with the traffic returns of a year ago. The retrograde move-ment in People's Gas was, as is well known, based upon the friction between the company and the Indiana concern which furnishes it with natural gas.

The exceptionally strong features of the mar-

het were St. Paul, which led the list in respect to activity; Atchison preferred, American Cot-ton Off, Louisville and Nashville, Southern Ballway preferred, and Illinois Central. Of these, American Cotton Oil was unusually ac tive, at a net advance of 4 points, a movement which may logically be regarded as fore-shadowing a dividend upon the stock this fall. shadewing a dividend upon the stock this fall. The revival of interest in Louisville and Nashvills seems to be due solely to the shifting of interest from stocks that have advanced materially to those that have been comparatively neglected. The advance in Southern Bailway is amply explained by the sannual report of the company, published since the close of husiness last Friday. The Union Facific and Northern Pacific stocks received, as for some time past, a good deal of attention. for some time past, a good deal of attention, but they made only fractional progress toward a higher level. Of the so-called low-priced stocks, Chicago Great Western was traded in most extensively, and it sold at the highest price recorded for it in the present movement. There was a sensational rice in the shares of the Minnesots from and the Illinois Steel companies, incidental to the announcement of the terms upon which the two corporations are to be consolidated. The first named jumped up 15 moints at the opening and refained nearly 5

12 points at the opening and retained nearly 5
Weent of the maximum advance. Reactionary
movements other than those already noted
sock place in Consolidated Gas, the Lake Erie
and Western stocks, Brooklyn Rapid Transit
and American Haiting. It was most promeunced in the Lake Erie and Western
spooks, which advanced sharply at the close of last week on rumors which lack sendrmation that the Lake Eric and Western Balfroad is about to be absorbed by the Cleveland, Cincinnati, Chicago and St. Louis Railway Company. The selling of Brooklyn Rapid Transit appeared to have been influenced largely by the publication yesterday in a
Brooklyn newspaper of what purported to be a
statement of the financial condition of the
sompany, but which, according to official statementa, was misleading and inaccurate in many

The list of specialties that received noteworthe list of specializes that received networks the attention was a long one. It included Brooklyn Elevated, Chicago and Terminal Transit preferred, Flint and Père Marquette Issues, Great Northern preferred, International Paper common, Lacledo Gas, National Lead and Oregon Navigation, all of which closed a point or more higher than on Friday. Foreign arbitrage houses traded both ways to the ex-tent of about 30,000 shares and appeared to be sellers on balance, although public cables from London tell of a reviving interest there, and more especially on the Continent, in American more especially on the Continent, in America shares. The closing was in the main strong.

BEAL ESTATE NEWS.

Complications have existed for some time concerning the ownership of the Grenoble, at the northwest corner of Seventh ayenus and Fifty-sixth street, and also the Grenoble apart-Fifty-sixth street, and also the Gronoble apartment house adjoining and froating on Fifty-seventh street. As a result the hotel property was recently sold under foreclosure to J. Hull Browning. Festerday the apartment house was also disposed of at auction in foreclosure proceedings in the action of the Brooklyn Savings Bank against William Noble and others. The attendance was small, and consisted mostly of roal estate brokers and a few operators. The incumbrances upon the property amounted to \$392,402, and the attorney for the plaintiff announced before the sale that \$300,000 could remain upon the property on bond and mortrage at 41s per cent.

There was only one bid, and the property was knocked down to Theodore A. Swan for \$395,000. The real buyer, it was stated later, was J. Hull Browning. This will now give him control of both properties.
